To Whom It May Concern:

It is with great pleasure and honor that I am able to highly recommend Bill and Debbie Streiter and their program. Clifton High School was lucky enough to have them speak to our senior class a few years ago before prom. I cannot impress enough upon you the impact that their story had on our school community as a whole. Their story (more importantly Billy and Ashley's story) enlightened our students and staff about the severe and deadly consequences associated with drinking and driving.

Our students were greatly impacted by hearing from and meeting Billy and Ashley's parents. Through an awful tragedy, Bill and Debbie are able to touch the lives of others in order to promote safety and awareness about drinking and driving. I can sincerely say that there was not a dry eye in the room. After their powerful presentation, numerous students and staff not only approached Bill and Debbie to thank them for sharing their story; but approached me as well to let me know how much of an impact their presentation had on them. I even received a phone call the following day from a parent that wanted to let me know that her son was incredibly touched by the program and vowed to never drink and drive.

Bill and Debbie selflessly tell their story to others in order to keep Billy and Ashley's memory alive as well as to preserve the lives of others. It is vital that every individual hear their story in order to understand the harm that can occur from one senseless act.

Again, it is with great pleasure and admiration that I recommend this program to anyone wanting to make a difference.

Sincerely,

Kelly Sutliff, MA, LPC, NCC, ACS
