

January 13, 2014

For 8 Years Bill and Deborah Streiter shared their family's story of love, life and death. Each month the students participating in the VIP Program sponsored by the Trauma Service of Morristown Medical Center. Students heard firsthand how personal choices can affect others in a very dramatic way. The Streiter's never showed anger, only gave sound reasons why these students should to turn the page and open a chapter that included health decisions and actions to lead to a productive life. They touch nearly 1000 students personally, and many more as their story was shared.
